Alot of expansion opportunities. Currently owner is operating completely absentee. New owner could act as Owner/ Director with a great salary. Existing owner derives a great income from business while completely absentee. Business could create a website to help in growth of business.

Other Information: The company now operates 4 tractors, at one time we operated 26 tractors and did business in 48 states. Due to various circumstances, I have reduced the company to the present level and now operate in 3 states. We have done business with our present customers for 5 years or longer and we have an excellent relationship with each one. We pride ourselves on providing services that most carriers will not, and we primarily handle daily dedicated loads which helps in planning.
